

Bus Service Update

"No bus service possible", says City Region.

Councillor Tony Murphy approached the Mersey Region Transport Department about the possibility of a new bus service being provided along Highfield South.

"On the basis that there has been an influx of residents on Walter Smith Way and Spinnaker House with over a 100 older residents, many with mobility problems - and with regular visitors and various health and care professionals attending, I hoped this would justify a bus service, even a minibus service," says Councillor Murphy.

"Perhaps even some school pupils and their parents might use it to, which would help a little with parking at the school."

However, the lead Officer for Transport said this would not be possible, due to regulation and finances.

"Mystery surrounds why the damaged Bus Stop from High School school days, was replaced by the junction with Walter Smith Way, when there was no intention to re-introduce the bus service that stopped many years ago," says Councillor Paula Basnett.
